

Concord Chapter #384

Vision Statement

To continue to be a viable chapter in the East Bay by supporting our Masonic family; by being involved in community events; and by caring for our members while strengthening our Eastern Star fellowship.

To attain this vision, we designed these stated goals:

- To create a sense of teamwork by working in conjunction with the Masonic Lodge, youth groups and other Masonic organizations through social and charitable functions.
- To make the name of “Eastern Star” synonymous with “service to the community” by being involved in community events.
- To engage and revitalize the existing Concord Chapter membership by committing to making personal contact with them.
